

Dear parents,

Present circumstances are very alarming and require a lot of precautions to be taken to stay safe & healthy Govt. Of India and State Govt. are trying their best to prevent their citizen from any loss from this most dangerous and deadly disease. One of the main step to combat this disease is to stay home and practice social distancing. However, you will also agree that the present time for the students is very crucial and important and shall not go waste.

Thus, our School management & staff have decided to run online classes during lockdown period. This will enhance the learning capacity of the students and provide an opportunity for creativity and innovation.

You are, therefore, requested to ensure that your ward(s) attends these classes regularly. Our teachers will help you complete the formalities from your end, but, please try to contact the class teachers in case they are unable to communicate with you. Please also help us to update the mobile numbers if needed.

Kindly follow the instructions issued by Government Authorities from time to time to stay safe and healthy because "Jan hai to jhan hai."
